For the attention of Mr Sam Gilpin.

Dear Sam

**Re: Demolition of the Marini Plant at Hingston Down Quarry**

Apologise for the delay in writing this letter, we have been busy constructing the new foundations etc; following the demolition works.

We would like to convey our thanks to you and your team for completing the demolition works well ahead of schedule, we were most impressed with the way you managed the project, your on site team was outstanding in the way they undertook the works and there attitude to health and safety was first class.

It was a pleasure working with yourself and Garry and we would be happy to recommend your services to our colleagues within Hanson.

To quote a comment from Garry, " You came, you demolished and you left" it was as simple as that.

Best regards from the Hingston Down team,
