Dear Sirs

We would like to convey our thanks and congratulations on your performance during the possessions at the River Exe; the way you approached the task and the effect you had over the weekends was significant in making the operation such a success.

We trust that we will be able to build on this experience and provide further work for both our companies.

The Client is very pleased that such a significant job was carried out in a most professional manner, producing a very worthwhile result.

Yours truly
For HOCHTIEF (UK) CONSTRUCTION LIMITED
