GILPIN DEMOLITION

The Sidings
Station Park
Haytor View
Newton Abbot
Devon
TQ12 6RQ

For the Attention of Sam Gilpin

Dear Sam,

Subject: Demolition of Roadbridge on Albany Street, Newton Abbot, Devon

I am writing to thank you for the excellent work that your company has recently completed for Mowlem Civil Engineering at the above location.

Having lost 2 weeks on our programme due to problems with the piling it was more than helpful that you managed to pull back some time for us by completing your demolition work in 2 days instead of the 7 days that we had allowed.

Gilpin Demolition carried out the work to the old bridge deck very efficiently and above all I was most impressed with the Health & Safety attitude that your team demonstrated.

Thanks again for your help and we look forward to carrying out more successful contracts with you in the future.

Yours Faithfully,

For and on behalf of Mowlem Civil Engineering
